#### Infrastructure Action Groups

**Evidence Based Injury Prevention** – Cindy Penn reported that the evidence based group will now be chaired by Dara Bakes. Dara shared that the Evidenced based group will continue its focus on supporting the other action groups. She also noted that the recent evaluation training by Dr.'s Gielen and Fowler from the John's Hopkins School of Public Health in December was well attended and highly rated by participants. ### **VIPP/OIPP Update**

- Kelly Metcalf has stepped down and will no longer be involved with the OIPP and Denise Franer has agreed to be the chair elect.
- The Bylaws/Terms of reference for the OIPP have been finalized and were sent out electronically to the members.
- The membership [renewal survey needs](#) to be completed by all members by March. Members who do not renew will be removed from the official OIPP roster and email list.
- Per the CDC Core Funding, the OIPP is required to select two policy priorities and program interventions. Christy reviewed a document highlighting the selected policy priorities and programmatic activities selected by each of the injury action groups.
- Christy reviewed state health improvement plan (SHIP) that is being developed by ODH. She noted that eleven health priorities have been identified including injury. VIPP staff will be identifying key stakeholders who will assist in the development and implementation of this plan.

### **Midwest Injury Prevention Alliance**

MIPA has identified two priorities: Falls Among Older Adults and Prescription Drug Abuse. MIPA will hold its second annual summit on May 21<sup>st</sup> and 22<sup>nd</sup>. More information about this will be posted on [MIPA](#) website.

### **May meeting agenda**

Jolene asked the leadership team to think of any professional competencies we may need to focus on for our member education. Other suggestions for the May meeting agenda were:

- ODMH to present on the Adolescent Childhood Experiences Study (ACES) study.
- Judi to present on the PDAAG's successes regarding policy change.
- Hoarding issues and injury.
- ODH Healthy Homes Program to present on home safety.
- Safe States program nominee discuss why their program was nominated.

### **Membership**

The leadership team had a brief discussion about new members from and recruitment. Christy asked that the leadership team to look at our rosters highlight any gaps.

### **Funding and Sustainability**

The leadership team discussed options for funding. Susan brought up converting the OIPP to a 501c(3). Christy explained that this may not be possible as staffing would be an issue. If we did go with this option ODH would no longer be able to support the work of the OIPP. Christy asked that we all try to think of unique and different funding opportunities and will be sending out an email asking for volunteers that may be interested in brainstorming ideas for different funding options besides federal grants.

**Adjourned for the general OIPP meeting.**

**Respectfully Submitted: Cindy Penn, Christy Beeghly**
